+ ABOUT ME

Highly motivated and experienced geophysicist seeking a postdoctoral research position in Electromagnetic prospecting to leverage my expertise in EM analysis and contribute to advancing research and exploration. With a strong background in potential field methods and electromagnetics, I am interested in investigating subsurface natural resources using ground, airborne, and semi-airborne measurements.

- > Fieldwork experience in acquiring geomagnetic, magnetotelluric, and semi-airborne datasets.
- > Proficient in programming languages such as MATLAB and Python and have experience working with large datasets.
- > Experience in geophysical instrumentation hardware manufacturing and software programming.

PROFESSIONAL EXPERIENCE

Present Nov 2019	Ph.D. student Institute of Geophysics, University of Münster, Germany <ul style="list-style-type: none">> Acquisition, processing, and modeling of magnetotelluric datasets> Acquisition and processing of Semi-airborne Electromagnetic measurements
Nov 2019 Aug 2013	Researcher National Research Institute of Astronomy and Geophysics, NRIAG, Egypt <ul style="list-style-type: none">> Acquisition, processing, and modeling of total magnetic intensity data for archeology prospecting and structural geology investigations> Operation and maintenance of two permanent magnetic observatories> Acquisition and analysis of magnetotelluric datasets for hydrological investigation and crustal studies
Jul 2013 Apr 2013	Geophysicist Spectrum Geopex Egypt Processing Center, , Egypt <ul style="list-style-type: none">> Analysis and processing of 3D seismic reflection data
Jan 2013 Sep 2012	Lecturer Geoscience department, Faculty of science, Helwan University, Egypt <ul style="list-style-type: none">> Teaching bachelor students geophysics courses> Analysis and interpretation of potential field datasets

EDUCATION

Expected Feb 2024	Ph.D. Applied Geophysics, University of Münster, Germany <ul style="list-style-type: none">> Dissertation : "Probing the lithospheric architecture of Northeast Africa using magnetotelluric measurements across Egypt".> Research project was funded by the Egyptian Ministry of Higher Education and Scientific Research.
Mar 2018	M.Sc. Geophysics, Mansoura University, Egypt <ul style="list-style-type: none">> Dissertation : "Integrating Magnetotelluric measurements with simultaneous magnetic observatory records to improve crustal investigations by telluric recordings".
July 2012	B.Sc. Geophysics, Helwan University, Egypt <ul style="list-style-type: none">> First ranked student in the Earth Sciences department.> Graduation Project : Spectral analysis and Filter design for geophysical datasets.

COMPUTER SKILLS

Programming	MATLAB, Python, C++ Javascript, HTML
GIS	QGIS, ArcGIS, PostgreSQL
Geosciences	Oasis Montaj, Surfer, RockWorks, ParaView
Operating systems	Windows, Linux
